

MOBILE WORK STATION

Kanazawa mobile elevating platforms are used in all applications where materials to be processed, loaded repaired, packed, controlled or assembled at an ergonomically working height. They are economical due to their universal application, site flexibility, and ability to remove physical strain.

Stock Code	Capacity (kg)	Wheel Size	Min Table Height (mm)	Max Table Height (mm)	Table Dimension (mm)	Net Weight (kg)
AQ01133	350	ø125	360	1300	905 x 500 x 50	100
AQ01134	500	ø125	280	900	815 x 500 x 50	76
AQ01134-N	500	ø125	360	1500	905 x 500 x 50	132
AQ01111	1000	ø150	415	1000	1016 x 510 x 60	80

- Lifts heavy objects and acts as a mobile working table
- Reduces the burden of lifting heavy objects to working height
- Operates with hydraulic foot pump and scissors mechanism to raise or lower load
- Rubber castor wheel with locking mechanism keeps the table in place
- Conforms to standards of EN 1757-2, U.S ANSI/ASME
- PU wheel material
