OLBRUS 71" X 24" Adjustable Height Workbench with Power Outlet

Model: Q08-1

About this item

Power Strip With ETL Certification: Our mobile work table is fitted a power outlet -- **2 AC Outlets and 2 USB-A ports** on the power strip, which is convenient for you to use a variety of power tools and lamps. More importantly, the socket is ETL certified, when you using is more safety and durability.

Heavy-Duty & Extra-Large Worktop: Constructed with a premium solid hardwood top and a robust steel frame, this workbench supports up to 2000 lbs. The spacious 71-inch long desktop provides ample room for projects of all sizes.

Adjustable Working Height:: Effortlessly adjust the table height from 27.2 inches to 33.5 inches to suit your preference or task, ensuring ergonomic comfort and reducing back strain during long work sessions.

Versatile & Sturdy Application: The perfect stable workstation for various settings including garages, workshops, home offices, utility rooms, or industrial spaces. Ideal for woodworking, assembly and crafting.
